Over the next few months, we'll carry on working with customers and the community on how to access Virgin Money or alternative banking services once we close the Store. We want to make sure the right support is in place for your banking needs and there are enough banking services in your local area.

In the lead-up to the Store closing, we'll share the results of this work with our customers and the wider community.

Understanding the impact of closing this Store

Background

More and more customers are taking advantage of our digital services and only visiting Stores when they want to discuss a significant life event which means customers are visiting our Stores much less.

It's important to balance investment in digital services with making sure our Store network continues to meet the needs of our customers. This means that we've made the difficult decision to close a number of Stores.

This decision has been reached after considerable thought and analysis which includes input from local management.

Our Store colleagues will actively engage with customers, including those who are vulnerable and potentially vulnerable, to discuss their options and support how they'd like to bank, following the closure of this Store, along with engaging with local groups in the community.

Details of the activities, additional support requirements, feedback received and remedial action needed will be included in the Store Review document, which will be available on our website and in Stores this September.

We've signed up to the UK Finance Access to Banking Standard and follow this for all Store closures: <https://www.lendingstandardsboard.org.uk/access-to-banking-standard/> (lendingstandardsboard.org.uk).

On 11 October 2022, the Financial Conduct Authority (FCA) introduced new standards which we'll also follow. For more info, head to <https://www.fca.org.uk/publication/finalised-guidance/fg22-6.pdf>.

We've shared the closure plans for this Store with LINK who, on behalf of the Cash Action Group, will independently assess the access to cash needs of the local community. The outcome of the assessment will be in our Store Review documents published in September 2023.

Considerations

In trying to decide whether to close a Store, we look at a lot of different things. As well as everything listed below, we also look at how often a Store is used and how local customers – including potentially vulnerable and vulnerable groups and business customers – will be able to carry on using banking services after the Store closes.

- > Number of customers using the Store
- > Number of other Stores we have in the area
- > Distance to nearest Store
- > Change in number of transactions in Store
- > Change in customer use of Store
- > Current lease on Store
- > ATM availability
- > Access to other banks in the area
- > Banking services at the local Post Office**
- > Public transport to other Stores
- > Other ways to bank (e.g. mobile, internet and phone)

**Business customers will be charged their agreed tariff for transactions, except Change Giving where the costs are recharged monthly in arrears.

Why did we decide to close our Chelmsford Store?

We have considered how all, particularly the potentially vulnerable and vulnerable, businesses and elderly customers, will be able to continue to access banking facilities after the Store closes. Below is some key insight of how our customers are using the Store.

- > Our customer transactions have decreased 40% since March 2020.
- > 55% of personal customers are digitally active.
- > 2% of personal customers visited the Store more than 10 times in the last year.
- > 76% of business customers are digitally active.
- > 6% of business customers visited the Store more than 10 times in the last year.
- > 76% of small business customers are digitally active.
- > 6% of small business customers visited the Store more than 10 times in the last year.
- > We continue to see an increase in customer digital registrations and mobile usage.
